Gentlemen:

For the past twelve years, we have been paying at the rate of eight dollars per year as a rental on the Peerless gas stove in the living apartments of this building.

For a considerable portion of this time, the range has been ineffective, and requests to have repairs made have not brought results. I am informed that such a range is offered now on the market by you at about eighteen dollars. During the term that this range here has been in our possession, you will observe that we have paid something in the neighborhood of ninety-six dollars.

I am informed that you no longer rent ranges, does it not seem that we should hardly be under the obligation of purchasing a new range under the circumstances?

Very truly yours,

Secretary

Gentlemen:

We have decided to have a new Peerless Gas Range to take the place of the old one which I understand has been condemned, in the apartment of our janitor, 617 West 158th Street. We wish to have this installed as soon as possible, and would appreciate it if you would kindly advise when this can be done.

We desire the oven of the new range to be as in the previous one - that is, on the left as one faces it.

Very truly yours,

Curator

Gentlemen:

We are preparing to publish a list of the Life Saving Medals that have been given out in this country, including Governmental, State, Organizations etc., both for saving life on sea and land.

We understnad that your organization gives a medal for saving life, presumably through gas asphixiation. If so, could you send us full particulars concerning it, such as, what it is awarded for, its scope, when and how awarded, etc.? We would also like a photograph or reproduction of the medal and the metals in which it is issued.

Very truly yours,
